PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building scalable SaaS applications using React.js, Node.js, Express.js, and PostgreSQL. Experienced in developing secure REST APIs, integrating third-party services like Google Calendar and Salesforce, and delivering production-ready features in Agile teams.

TECHNICAL PROFICIENCIES

Languages: JavaScript, Java, SQL, C++, Python

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, RESTful APIs, Spring Boot

Authentication: JWT, OAuth 2.0, RBAC

Database: PostgreSQL, MongoDB, MySQL, Sequelize ORM, Redis

Cloud & DevOps: AWS, Docker

Tools: Git, GitHub, GitLab, Postman

Concepts: MVC architecture, SaaS Agile

PROFESSIONAL EXPERIENCE

Software Developer Intern | Prismberry Technologies - Noida, Uttar Pradesh (Oct 2024 – Oct 2025)

- Engineered full-stack SaaS features using React.js, Node.js, Express.js, PostgreSQL and Sequelize ORM.
- Delivered 3 Trackier modules—Meeting Management, Employee Feedback and Salesforce Integration—over a four-month development cycle.
- Developed 25+ RESTful APIs following MVC architecture to support scalable frontend-backend communication.
- Implemented JWT authentication, OAuth 2.0 and RBAC to secure workflows for approximately 150 employees.
- Embedded Salesforce dashboards and reports through Salesforce API integration, improving business data accessibility.
- Containerized services with Docker, participated in AWS deployments, validated APIs with Postman, and collaborated with clients in Agile sprints.

Full-Stack Developer Intern | Bharat Intern - Remote (Aug 2022 – Nov 2023)

- Built full-stack applications including Text Utils and Video Conferencing using React.js, Node.js and Express.js.
- Integrated frontend components with backend APIs while collaborating through Git workflows

PROJECTS

Trackier (Enterprise SaaS)

- Delivered production modules for approximately 150 internal users.
- Designed hierarchical employee feedback workflows using secure REST APIs.
- Integrated Google Calendar and Salesforce APIs while developing reusable backend services.

INBA | C# MySQL

- Implemented a variety of forms on both the frontend and backend. Additionally, I gained insights into GitLab, enhancing my understanding of professional collaboration on large projects.

EDUCATION

- B.Tech, Computer Science & Engineering | Chitkara University, Baddi, Himanchal | CGPA: 8.87 | 2025

CERTIFICATIONS

- Salesforce Certified Associate | Salesforce
- Salesforce UI/UX Designer/Developer | Salesforce
- Software engineering, C++ | Infosys
